

### Always Use Seatbelt

"Safety comes first" Always wear a seatbelt to keep yourself and others protected. Seat belt keeps you safe in case of any collision.

### Do not Drink & Drive

It is very important to have all your senses in place while you drive. Alcohol can reduce your reflex. Hence it is essential to be sober while you drive.

### Keep Your Vehicle Clean

You may not know but customers do notice if the vehicle is cluttered with articles like plates or paper, dust and, dirt or it is clean.

### Make Sure You Look Professional

Maintain your uniform well; your efficiency will be judged based on your professional approach. Wear clean shoes.

### Observe Speed Limits

"Speed Kills" There is a reason for specifying speed limits. Unnecessary speeding can contribute to major fatalities.

### Always Carry a Toolbox

You never know when and in what situation you will need certain tools, so always carry a toolbox with the necessary equipment.

### Keep Yourself Cool on The Road

Your car will function the way you want it to function. Incidents of road rage and physical altercations happen almost daily. You must always ensure to not be a part of it and maintain your cool.
